EAST CAMP

Don't forget the Water Rat's practice water polo match this afternoon at 5:00.

Tonight, the Water Rats meet the indomitable Drowned Muskrats at 6:30 in the East Aquatics Arena. Come and cheer your team on.

Staff meeting-1:00 in the East office.

Only two more days for merit badge work—see your counselor now and avoid the rush.

WEST CAMP

There will be a scoutmaster's meeting tonight in the west camp office, at 10PM. At that time we will have your advancement reports ready for you; so bring your troop advancements records to double check ours.

Tomorrow's breakfast will not be held in the dining hall. Instead, every troop should send 4 scouts to the mess hall at 7AM to receive a picnic breakfast and milk. This may be taken back to your village and eaten at your convenience. The buses for the shore will be loading at 8:00 so that all your luggage should be there by that time.

There will be village guides reporting to every village tomorrow at 6:30, in order to help you prepare to leave. Please pick up all litter.

This evening at 5:45 we will gather at the flagpole for our final retreat.

Tonight please gather at the flag pole at 8:45 for our final and best campfire ever.

Mrs. Peckard, the nurse, has reported to us that her strongest case of the summer was last week. It was an older scout who had used so much saccharin in his bug juice that he came down with artificial diabetes.

West Camp (Continued)

Lost-167 Ma-Ka-Ja-Men Staff neckerchief lost Monday night at OA B'hood initiation. If found, contact Bob Striebel, SM T-9 (Hickok).

Congratulations to George Bartholomew, who completed his Eagle Board of Review last night.

Dave Johnson would like to see all Astronomy merit badge scouts at the East side of the mess hall right after lunch.

Environmental Science hike at 2:00, meet at the Nature Lodge. Least hike.

Dave Johnson is elated to have found 2 Cracker Jack prize rings which he says are chesser rings which will enable him to do inter-galactic travel to the planet Trelfandore where his lover, the lucio Montene Wildhack lies waiting inside a Sears & Roebuck Geodesic Dome protected from the cynide atmosphere. Look out Montene...yee,yee,yee...
